Yes.

I send a tracking spreadsheet to WM this morning to help us both keep tabs.
I will forward that e-mail to you for your info (should've bcc'd you, forgot).

Cheers,

Dean — We are trying to keep track of all the deadlines the EPA imposed on Waste Management. By our calculation, Friday was the deadline for the following item (within 10 days of order):

"Waste Management must provide analysis of the structural integrity of the landfill cell from which garbage spilled. That analysis must be conducted by a "qualified civil or geotechnical engineer." The company must also provide a work plan to ensure the structural integrity of a temporary fix to that cell."

Has that analysis been conducted? If so, can we please obtain it from you?

Have all deadlines been met to date? Is Waste Management still in total compliance with the terms of the order?

Thanks, as always for your help.

Mike
